Thousands of Ague Sufferers Yearly Use, fever and ague remedies, without knowing that all their strength is owing to arsenic, quinine, mercury, or other deadly poisons, which though they often "break the clilibe" for a short time, are sure to lay the foundation of wrethed mahadies that cease only with life.

But the unparalleled efficacy or "RHODES" Pover and Ague Cure, or Antidote to Maiaria "is equalled only by its singular innocence; and in proof of this the following critificate from the most celebrated chemist in the United States is attached to every bottle:—

NEW YORK, June II, 1856.

I have made a chemical examination of "Rhodes" Pever and Ague Cure or Antidote to Maiaria." and have tested it for arcenic, mercury, qualine, and strychnine, but have not found any anticle of either in it, nor have i found any substance in its composition that would prove injurious to the constitution.

Jass R. Churos, M. D., Chemist.

Remember, therefore, that this is the only fover and ague remedy in the world, the innocence of which is proved by such a certificate of chemical analysis, and the value of which is proved by the testimony of all who sell or use it, specimens of which are frequently published.

No doubt the public will readily appreciate the difference between assertions thus supported by proofs and the incredible bombast indulged in by those who have nothing ties to rely upon.
